TO WHOM IT MAY CONCERN

RE: DR. CRESCENZO D'ONOFRIO

I write to recommend Dr. Crescenzo D'Onofrio, a medical doctor, a highly trained and experienced surgeon and a person dedicated to humanitarian endeavors. Having known Dr. D'Onofrio for several years I can attest to his commitment to advancing health in Africa because of his projects in various African countries. He has worked with Nyumbani on a part-time basis in affording specialty consultations as well as acquisition and administration. His valuable assistance has improved the delivery of our health services.

In the past he has administered an international medically oriented NGO based in Italy but serving several African countries.

Of good moral character and high professional integrity, Dr. D'Onofrio will be a reliable, creative and productive leader in any medical capacity and I recommend him without reservation.

Yours sincerely,

Angelo D'Agostino, SJ, MD
Founder & Medical Director
